Subject: FW: OPP Incident Data System (IDS) [WARNING: SPF validation failed]

Good afternoon Mr. Berry,

In response to your request regarding fipronil incidents and the OPP Incident Data System (IDS), below is the link to the registration review public docket (#EPA-HQ-OPP-2011-0448) at www.regulations.gov, specifically the fipronil incident memo "Fipronil: Review of Human Incidents" (S. Recore, 3/1/2011, D387320) referenced in the fipronil scoping document that you referred to in your message below. The incident memo contains a narrative summary of the higher severity incidents (those involving death, major or moderate outcomes) reviewed from January 1, 2002 to November 30, 2010 in Appendix 1:

<https://www.regulations.gov/document?D=EPA-HQ-OPP-2011-0448-0005>

The less severe human incidents (minor, unknown, or no effects outcomes) are reported by registrants and stored in the IDS as counts, called aggregate summaries, which do not include any narrative information.

The updated draft registration review risk assessment for human health is currently anticipated to publish for public comment in June 2017, and will include an update of fipronil incidents.

In the meantime, if you would like to request information regarding fipronil incidents reported to Incident Data System (IDS) after November 30, 2010, this information is available through a Freedom of Information Act (FOIA) request:

<https://www.epa.gov/foia>

Please let me know if you have further questions.

Best,
Garland

Hey Jeff,

I'm reading an EPA Memorandum dated May 24, 2011 re: Fipronil – Human Health Assessment Scoping Document in Support of Registration Review. It says that "The OPP Incident Data System (IDS) was utilized for pesticide incident data on the active ingredient Fipronil (PC Code 129121)."

How do I access the OPP IDS, particularly the Main IDS and Aggregate IDS? Thanks

Brannon Berry
